

FLEXOR

ECO 330ZZ

Fan Folder

Flexor Poland Sp. z o.o.
ul. Strażacka 4
95-080 Tuszyn
Poland
info@flexor-group.com

Highlights

- Gap/Cue Mark Reader Sensors
- Automated workflow
- Intuitive touchscreen control
- Built in counters for labels & meters
- Electrically adjustable fold length

Technical data

ECO Fan Folder	330ZZ
Web width (mm)	65 – 330
Max. unwind dia. (mm)	600
Min. fold size (mm)	149
Max. fold size (mm)	381
Max. speed (m/min)	50
Dimensions L×W×H (m)	0.6×0.74×1.09

About Fan Folder

The Flexor 330Z is a new generation of compact fan-folding machines, specifically developed for handling labels and tickets without sprocket holes. Equipped with a label gap and cue mark sensor, it electronically monitors the paper feed to keep the folding register perfectly aligned. To streamline the production process, the programmable descending table lowers automatically as the job runs.
